PROMATIS COMPETENCE
GROWTH WITH POWER

Oracle NetSuite – No. 1 of Cloud ERP Solutions

Oracle NetSuite – the world's number 1 cloud-based ERP software – provides comprehensive, proven financial/ERP functionalities that integrate with your wider back-office, sales and service processes.

Oracle NetSuite is an extremely scalable system that grows with your business, allowing you to add features quickly and easily on demand. The core is a dynamic and user-friendly platform that provides a comprehensive picture of your company at all times.

PROMATIS – intelligent business processes

PROMATIS stands for Business Process Excellence that shows itself in the synergetic interaction of business processes and modern information technologies.

Innovative digitization concepts enable a smart entry into the profitable use of Oracle NetSuite. Superior process models and project tools as well as best practice solutions ensure excellent project results, cost effectiveness and on-time implementation.

Symbiosis for your successful growth

For growth companies specifically, Oracle NetSuite offers optimized solutions that professionally map your business processes from the beginning.

The complex, cross-company requirements can be adapted just as easily as local and global extensions. Supplemented by PROMATIS' know-how of process optimization, you can concentrate on your core competence and react quickly and safely to new market opportunities

ORACLE NETSUITE

START NOW INTO THE FUTURE

Cross-industry, agile and professional – characteristics of a modern solution! Start with the basic or extended financial functions that serve as a basis for a broader corporate functionality in the future.

PROMATIS Business Process Excellence

The service portfolio for Business Process Excellence includes the monitoring of complex processes within the company. The services go far beyond the optimization of business processes – adaptable business processes are designed and implemented, which offer potential for ongoing adaptation to changing business models and market conditions.

Oracle NetSuite – Cloud Application ERP

Oracle NetSuite is cloud-based and optimized for mobile devices and social networks. This unified business management suite helps companies grow through integrated functions (ERP/finance, CRM and e-commerce). The core of this modern and scalable solution is a dynamic and user-friendly platform that can be accessed by all users of a company worldwide at any time and via any device.

Oracle NetSuite SuiteSuccess Financial First

From the very beginning, companies need to have a plan to scale their business and infrastructure. Especially growth companies should focus on the financial sector in this initial phase.

NetSuite SuiteSuccess is a complete solution that helps small and rapidly growing companies manage all aspects of their business within a single system. In order to meet the many financial challenges faced by growing companies, NetSuite Financials First has developed a new approach that can be integrated step-by-step and in a systematic way.
